

ATHLETIC WALK

AthleticWalk is a multilayered cast polypropylene film with a silver-grey back that is designed for an easy application, repositionable and removable without any residues. AthleticWalk is excellent indoors for sports and indoor floors with a very smooth surface, but cannot be glued to vinyl flooring. What we can recommend for this particular floor, if used once, would be MyFloor Film. We recommend a test before application. The especially for this kind of application designed adhesive has a felt low tack that is developing its full adhesive strength after 24 to 48 hours.

Durability

Up to 12 months for indoor applications

Printing method

UV, latex, (digital) offset and screen printing

Storage

Shelf life is 12 months from the date of delivery. Storage conditions +15°C to +24°C and relative humidity between 40% and 65%.

Advice

The adhesive back needs to be applied on the origin liner or on another siliconized liner if you would like to reuse it with temporary storage. Store the material in a plastic tube to prevent the adhesive from drying out.

Take care when removing the film from the surface, as the cast and flexible material can get optical traces very easily. Keep the material away from cleanser which contains solvent or ammoniac. The silver back can be cleaned with lukewarm water if it's polluted. Not recommended or only after previous testing for applications on the following surfaces: vinyl, PVC, polished aluminum and copper.

The foils should not be applied overlapped. It is recommended to round the corners. When applied to vehicles, the surface has to be undamaged and in perfect condition.

Warranty

Continental Grafix products are warranted to be free of defects in material and manufacture at the time of shipment and to meet the specifications stated in the technical specification sheets. We will replace or refund the price of any Continental Grafix materials found to not meet our product specifications. In no case shall Continental Grafix be liable for any direct, indirect, or consequential damages, including labor or non-Continental Grafix materials charges. The determination of suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy of suitability for specification.

Uses

- Indoor sports floors
- Sports hall floors
- Marble
- Polished stone
- Smooth stone

Features & Benefit

- Easy application and removal
- Removal without adhesive residue
- Reusable
- Repositionable
- Excellent durability
- Great heat resistance and dimensional stability
- Cleanable back
- Humidity and solvent resistant

Technical Information		AthleticWalk
Size	Width: 1.372 m Length: 30.48 m	
Material	Self-adhesive multilayered cast polypropylene film with a silver-grey back	75µ +/- 10µ
	PET Polyesterliner	125µ +/- 10µ
Adhesive	Repositionable special adhesive	25 g/m2 +/- 5g

Important, more and more hall floors have a vinyl coating and in this can cause a chemical bond with our Athletic Walk. For these surfaces we recommend our MyFloor Film (single use).

Technical Information		MyFloor Film
Size	Width: 1.372 m Length: 30.48 m	
Material	Glossy, self-adhesive vinyl film with printable white front Siliconized paper liner	100µ +/- 5µ 120g/m2
Adhesive	Grey permanent solvent adhesive	20g/m2 +/-3g/m2
Application	Minimum application temperature	+10°C / +50°F
Certificate	Flammability	B1

Technical Information		AthleticWalk Laminate
Size	Width: 1.372 m Length: 30.48 m	
Material	Self-adhesive structured laminate	200µ +/- 5µ
Adhesive	Permanent, clear adhesive	30g/m2
Certificate	Slip resistance	R10
	Flammability	Cfl-s1 (DIN EN 13501-1) / B1 (DIN 4102)
	Sliding performance	DIN V 18 / DIN EN 14904:2006
